

TempSure™ *Evvi*

Beautiful Skin. Beautifully Simple.

What is TempSure Envi?

TempSure Envi is a new radiofrequency treatment that minimizes fine lines and wrinkles, tightens skin* and improves the appearance of cellulite.

- Safe for all skin types and levels of sun exposure
- No surgery, no needles, no downtime

The Problem

As we age, our bodies can't generate collagen as fast as it is depleted causing our skin to lose laxity and firmness. As a result, wrinkles and fine lines form leaving you with smile lines, crow's feet and other bothersome creases.

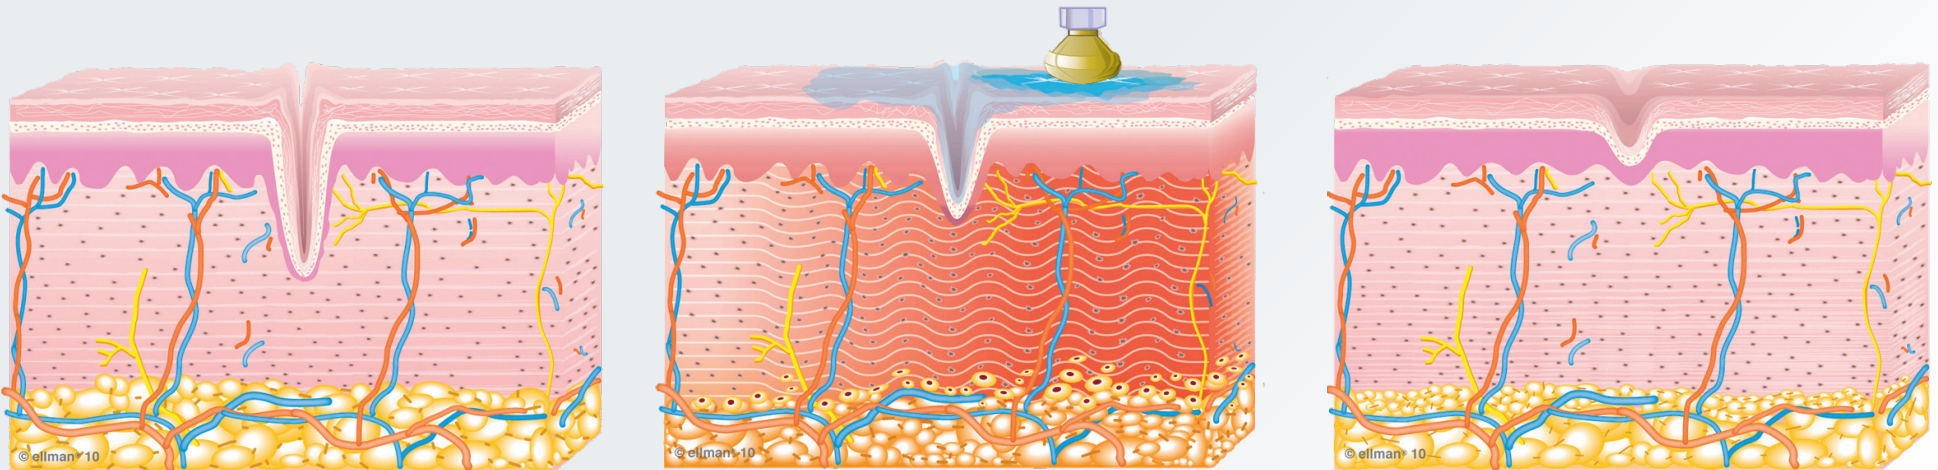

The Solution

Finally there's a solution that works! TempSure Envi minimizes fine lines and wrinkles, tightens skin* and improves the appearance of cellulite. It's safe for all skin types so it fits into any beauty maintenance routine, any time of the year!

How does it work?

TempSure Envi gently heats your skin to trigger your body's natural response to produce new collagen. The new collagen fibers are tight, dense and neatly organized giving you tighter, younger-looking skin!

Untreated Skin

TempSure Envi targets facial fine lines and wrinkles.

Collagen Synthesis Begins

TempSure Envi delivers radiofrequency technology to gently heat your skin. Increasing the skin's temperature for a defined, therapeutic time will trigger a natural response for your skin to create new collagen.

Collagen Remodeling Occurs

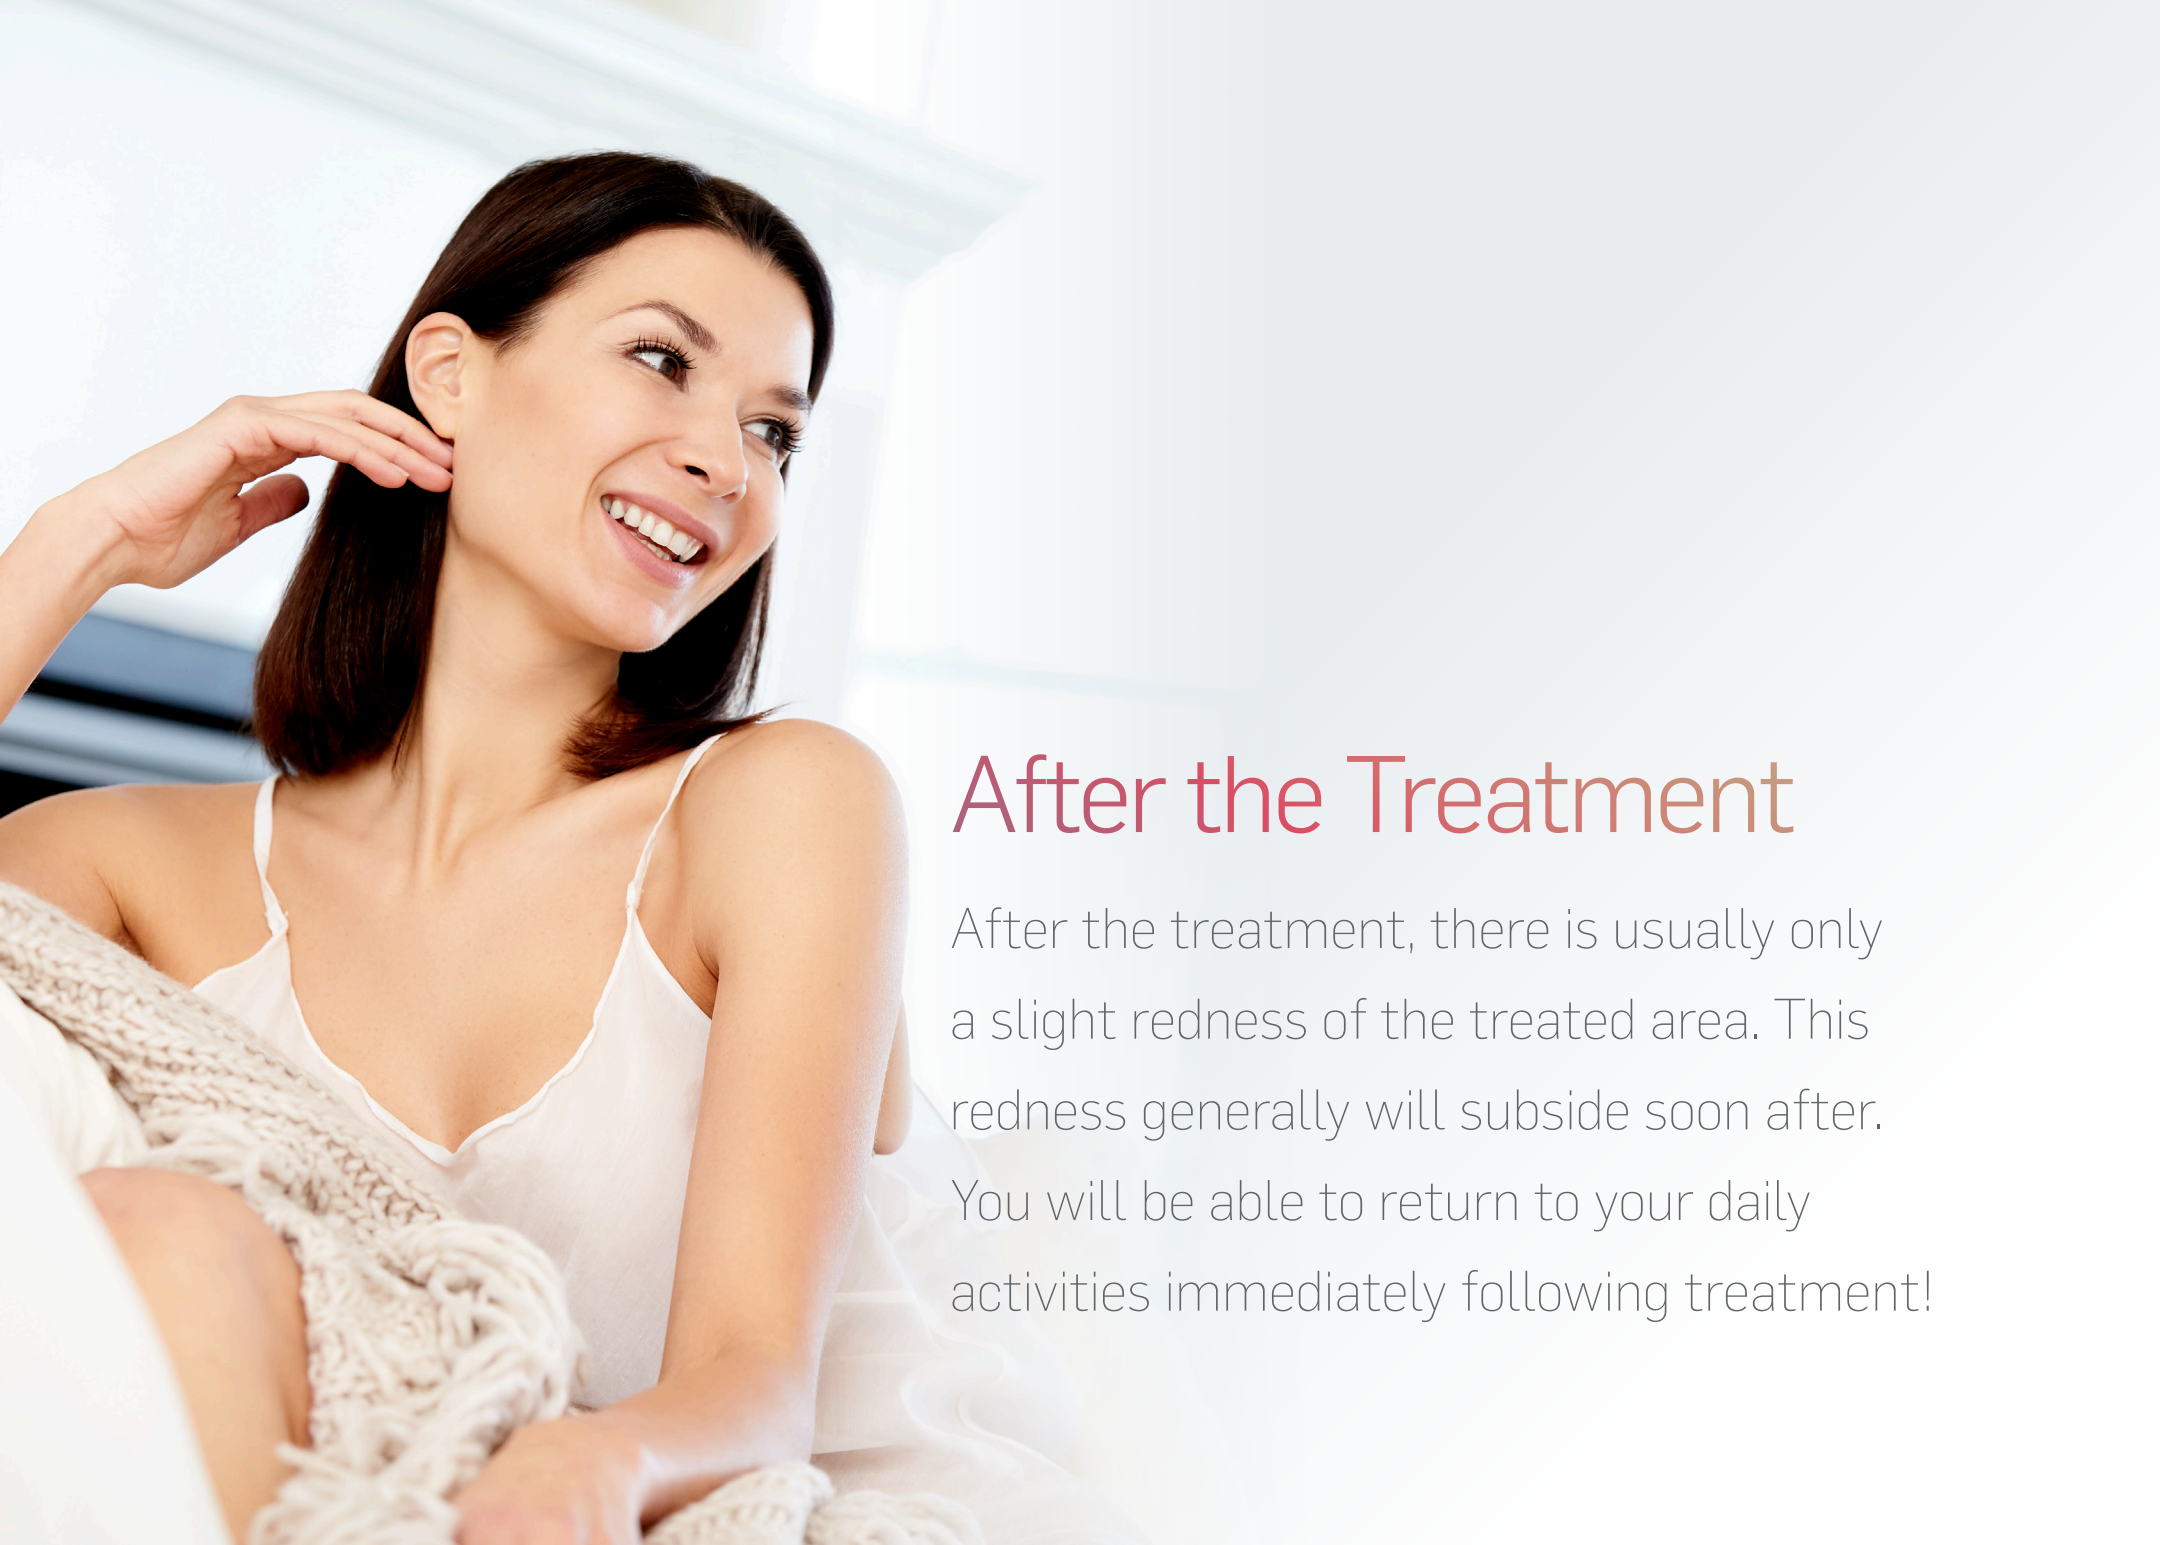

The new collagen fibers are tight, dense, and neatly organized giving you tighter, younger-looking skin.

During the Treatment

During a face-only treatment, you will experience a gentle warming sensation around the target area(s). Most treatments can be performed in under 45minutes, which makes this a great lunch time option.

During a body-only treatment, you will experience a gentle warming and massage sensation around the target area(s). Most body treatments can be performed in under an hour!

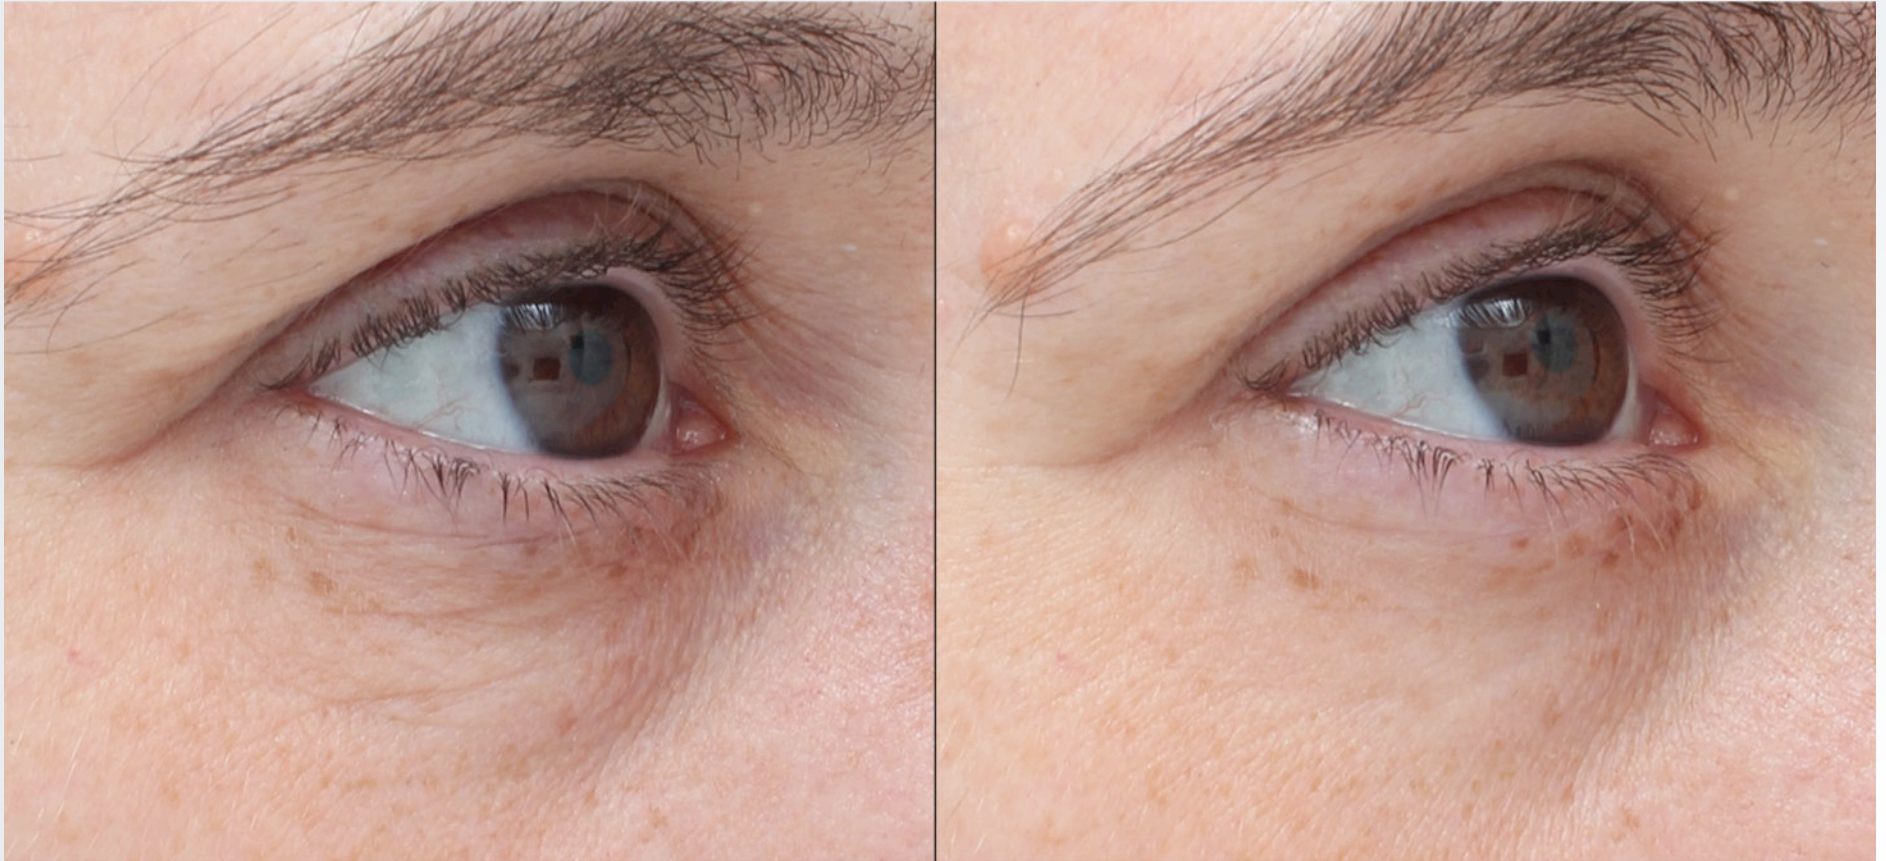

After the Treatment

After the treatment, there is usually only a slight redness of the treated area. This redness generally will subside soon after. You will be able to return to your daily activities immediately following treatment!

What are patients saying about it?

- “It feels like a hot stone massage”
- “It was relaxing, spa like feel”
- “Skin glowed and felt smooth”
- “People commented that my skin was glowing”

Is TempSure Envi right for me?

TempSure Envi treatments are extremely safe and can be performed on all skin types. Unlike other technologies, treatments can be performed all year round.

When will I see results?

Instantly! You will leave with a natural glow and what patients describe as a “Tighter” feeling¹. The best part is collagen will continue to rebuild, enhancing your skin's appearance over time!

Does it Hurt?

TempSure Envi has been carefully designed with comfort in mind to provide you with a comfortable and effective treatment every time! 99% of patients described the treatment as comfortable¹.
